THERMOMAT
saniline s.r.l.

THERMOMAT

For years specializing in the production of supports for disabled people, **THERMOMAT** proposes a rich range of products, expressly studied for anybody who has mobility problems, also when they are temporary.

These accessories allow an easy grip and they are effective support because they make the movements in the bathroom safe and easy; they can be installed in the bathrooms of houses, hospitals, disabled people centres, nursing homes and so on. They are realized with a 32 mm. zinc coated steel tube, treated with special paints which give them pleasant appearance. They are easy to be cleaned, so they can guarantee the maximum hygiene.
